K504
Compact Piston Seal

K504 is a three-piece, double-acting compact piston seal set consisting of an NBR sealing ring reinforced with fabric on the dynamic surface and two thermoplastic guide rings. It is designed for reliable sealing and guidance in demanding hydraulic applications.

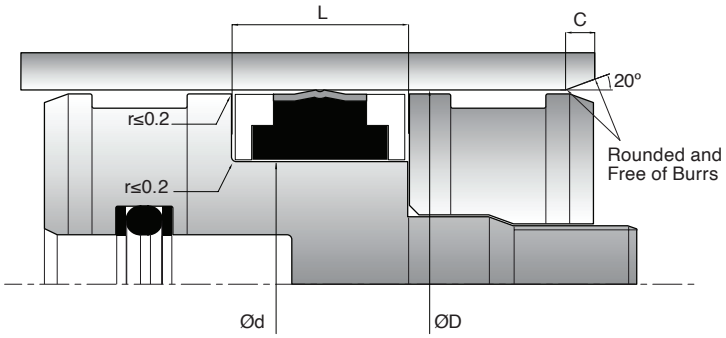

PRESSURE (bar):	SPEED (m/s):	TEMPERATURE (°C):	MATERIAL CODE
400 bar	≤0.5 m/s	-30/+100 °C	NB8001 FB8001 PM9901

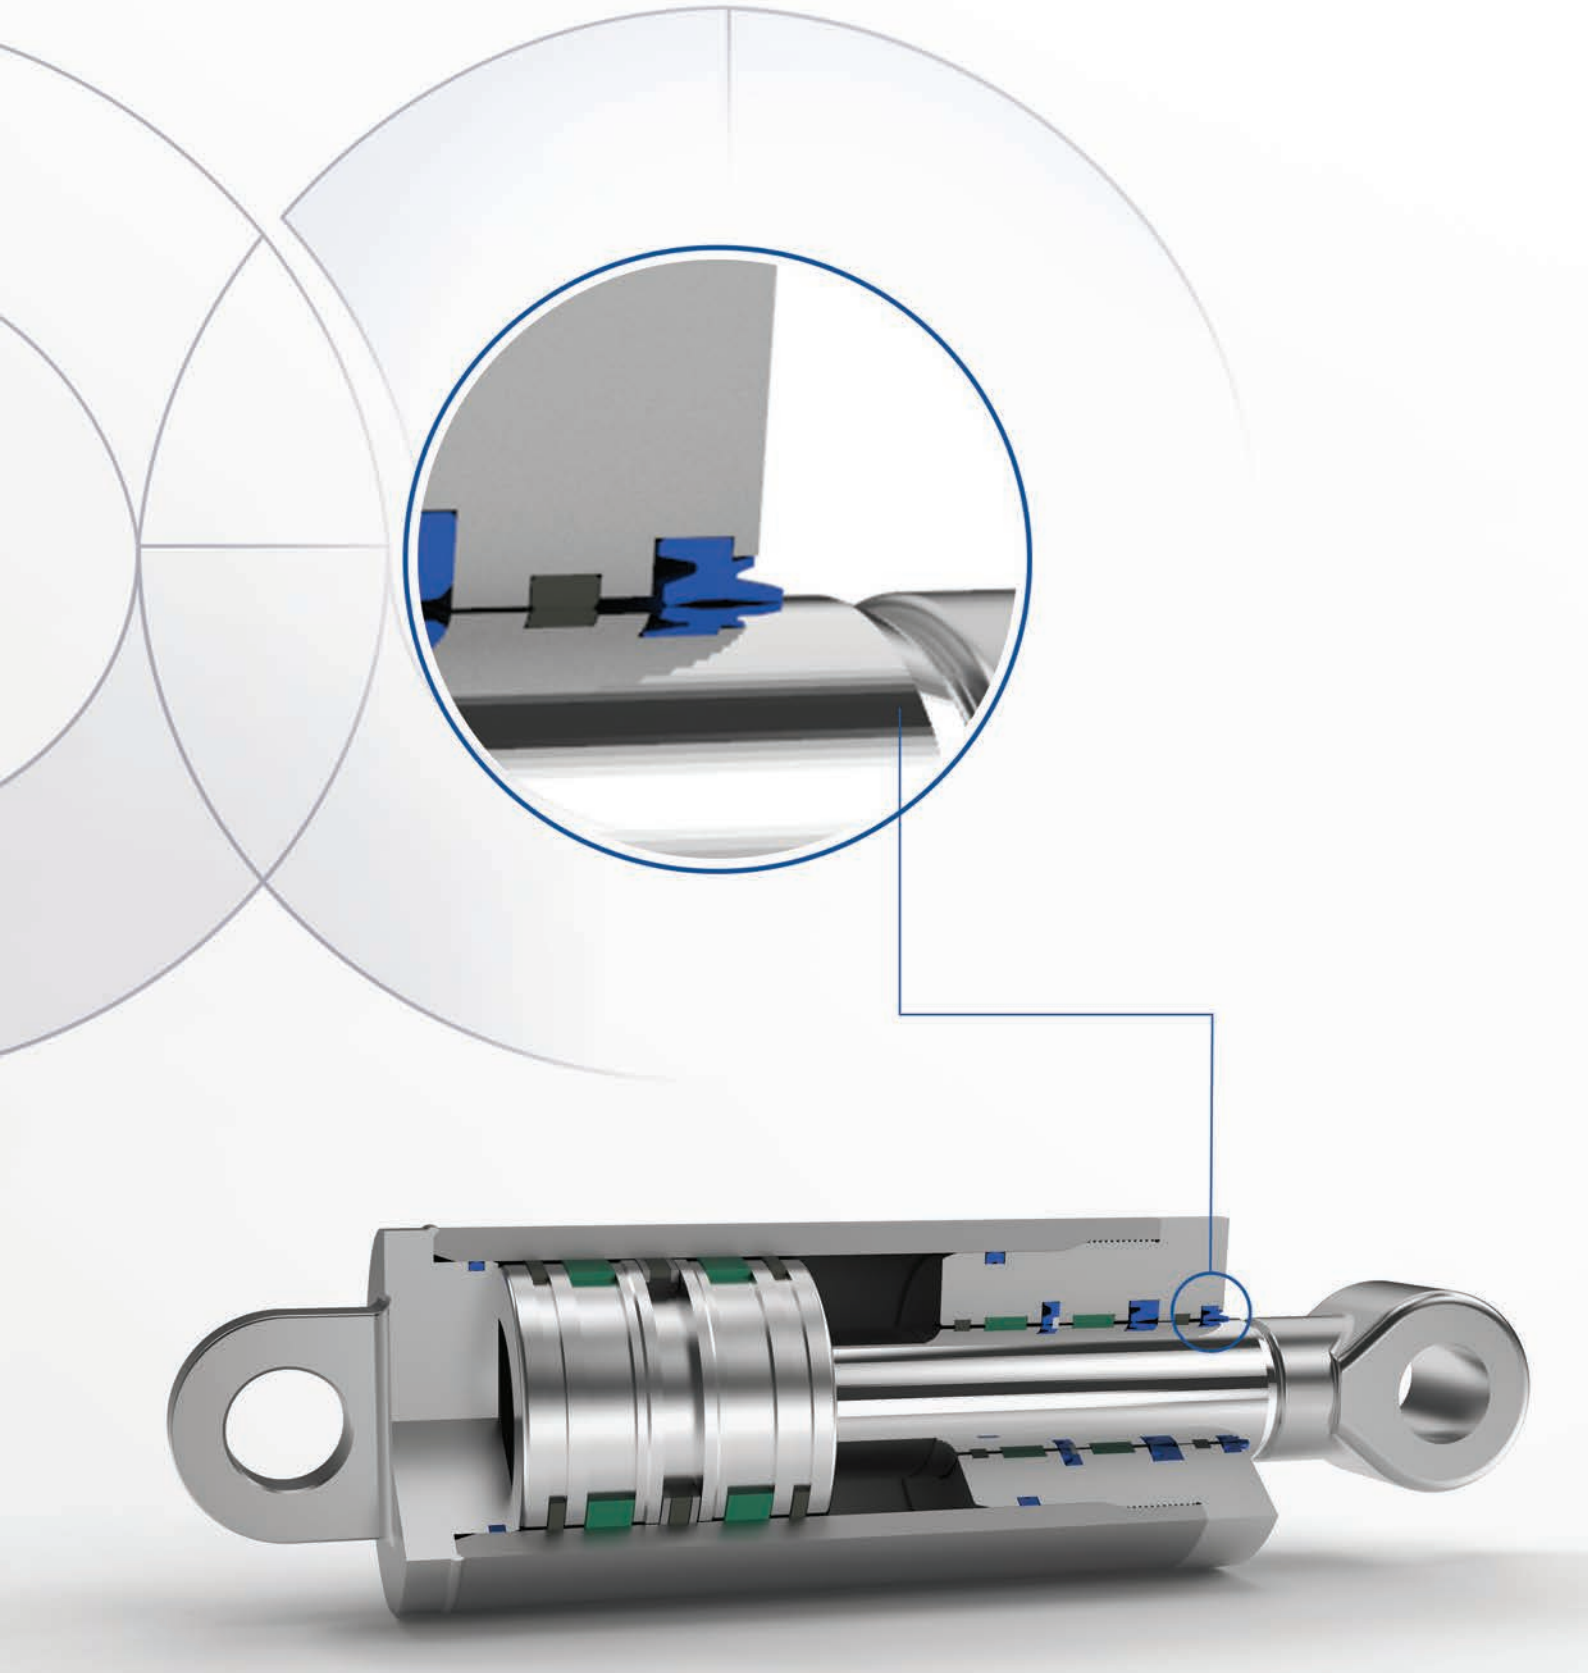

K505
Compact Piston Seal

K505 is a three-piece, double-acting compact piston seal set consisting of an NBR sealing ring reinforced with fabric on the dynamic surface and two uncut thermoplastic guide rings. Designed for open groove applications, it offers excellent sealing on rough surfaces and ensures a locking effect under high pressure conditions.

PRESSURE (bar):	SPEED (m/s):	TEMPERATURE (°C):	MATERIAL CODE
700 bar	≤0.5 m/s	-30/+100 °C	NB8001 FB8001 PM9901
